INTRODUCTION

European Headache Federation (EHF) promotes its own School of Advanced Studies (SAS), aimed to support headache science and scout young scientists following criteria of merits. EHF-SAS offers young EU scientists high qualifying educational activities, complementary to the ones operating in their structures, enhancing their critical spirit and their skills to face the complex knowledge of headache medicine always in a multidisciplinary perspective.

The offer of EHF-SAS covers the richness and diversity of Headache Medicine fields, being articulated in the following three classes of interest:

- **Basic Science**
- **Clinical Science**
- **Diagnostic Science**

EHF-SAS places a great emphasis on collaborative projects. EHF will support its fellows' activities allowing them to independently build their own plan sided by the EHF-SAS Scientific Committee.

The EHF-SAS teaching staff includes Senior Fellows and Honorary Senior Fellows. EHF-SAS Senior Fellows are ex-officio the members of the EHF Board of Directors during their terms.
